Australian Water Brokers Association

30 November 2022

Dear Member,

The Australian Water Brokers Association (AWBA) executive would like to remind all members about the Code of Conduct available via the web site at <https://awba.org.au/about/>

The 5-page document, while voluntary, is in place to "...ensure high standards of conduct by water market intermediaries" and "to promote a high standard of integrity" by water broking professionals.

The committee would like to highlight the Professional Conduct section. Information provided to clients must be relevant and accurate and must not be misleading or deceptive. This applies to personal communications with an individual client or promotional and advertising material.

Please take the time to read and familiarise yourself with the AWBA Code of Conduct.

The reputation of the AWBA is directly related by the actions of its members.

A handwritten signature in black ink, appearing to read "C. Feuerherdt".

Craig Feuerherdt
AWBA Vice President

The Associations primary role is to set and maintain the highest standards of professional practice, education, ethics and professional conduct for its members and the broader water broking industry.
